

THE POWER PEDESTAL COMPANY

Unrivalled versatility in a power pedestal.

PowerPort®

MARINA
RV PARK
BUSINESS
HOME

HyPower's design and engineering have always been about ease of use for our customers. PowerPort® is the culmination of that philosophy.

It stands out over other traditional power pedestals with four functional built-in sides for added flexibility and convenience. PowerPort's wired, modular design features the PowerSnap® panel and 400 ampere capacity are certain to keep you ahead of your ever-changing electrical needs.

PowerSnap® Panels

PowerSnap® is an industry exclusive that allows you to change out receptacles and breakers just by snapping a panel in and out — saving time while allowing you to keep customers happy with little or no downtime. It's as easy as removing four screws, pulling the panel, setting a new panel in place and reattaching. No more replacing a pedestal, rewiring on property or breaking the pedestal down for annual maintenance inspections like traditional pedestals. Most electrical parts are standard and can be bought locally; no special sized breakers, light bars, etc.

PowerSnap® Hurricane Weather Base

Be prepared for the next severe weather event with your HyPower PowerPort® customized with our power snap hurricane weather base. Just like our power snap panels, you remove the screws, lift up and take the entire powerhead to safe storage. After the hurricane, you are the first back in business guaranteeing happier customers and the best reputation in the area.

The head snaps out for safe storage during severe weather.

CUSTOMERS RAVE ABOUT HYPOWER

“Our marina has been through three hurricanes. Thanks to the PowerSnap base, we were able to remove our pedestals from their bases and save them from being damaged. We also like being able to change power from slip to slip by just snapping in a different panel.”

— BRIAN W., SPORTSMAN MARINA, ORANGE BEACH, AL

STANDARD FEATURES

- Non-conductive polycarbonate injection molded body with UV protection
- Safer more secure internal fastening system
- Prewired with standard copper wire to 400 ampere with provided non-metallic separation of high-voltage, low-voltage and water
- Field wiring terminals to 350 kcmil for current carrying conductors and 2/0 AWG grounding
- Lockable hinged door with your padlock
- Photo-cell activated 360° lighting with a 9W LED bulb and your choice of a clear or amber lens
- PowerSnap panels
- Receptacles and breakers to include 100A, 50A, 30A and 20A Marine/RV with matching breakers
- Brass connectors/stainless steel screws at all high stress points for stronger assembly; no more leaning on the docks or wallowing out
- UL certified, ADA compliant, and meets or exceeds all NEC and NFPA requirements

OPTIONS

- PowerSnap Hurricane Weather Base
- Up to (2) 3/4" hose bibs with ADA compliant turn ball valves and brass backflow preventers
- Lid/top colors: white, blue or green
- CATV and Internet/CAT5 connectors
- Custom logos available for branding
- Utility metering both electric and water with remote read capability
