

HydroLocker®

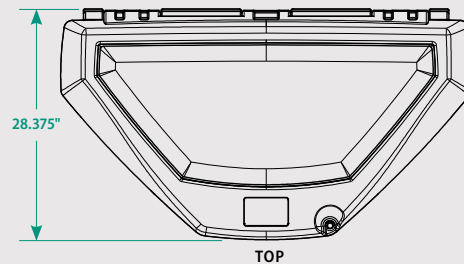

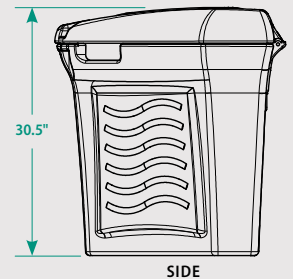

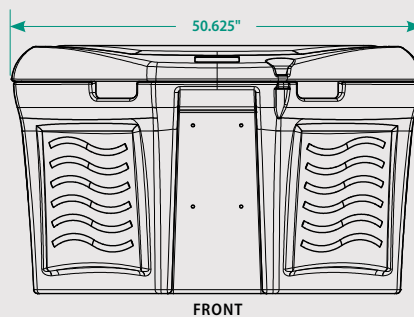

MARINA
RV PARK
BUSINESS
HOME

HydroLocker offers a refreshing design with unmatched durability which compliments today's yachts and marinas. No more worries about a dock locker that tears off or is crushed when being used. Designed to withstand harsh marine environments, HydroLocker is the safe, user-friendly locker that saves you time and money.

Standard Features

- Tough UV stabilized polyethylene construction with 11.5 cubic-foot storage space
- Designed to accept a regular padlock
- Unique raised edge resists water penetration
- Recessed back for water riser and hose storage

Integrate an **EnergyMate®** with **HydroLocker** to create a unique utility center with power and water connections.
